Strata IPA is truly an Oregon-made beer from start to finish. The Strata hop was bred and developed at Oregon State University's Aroma Hop Breeding Program, a collaboration with Portland-based Indie Hops. After eight years of trial and error, the Strata hop was grown at Goschie and Coleman farms in the Willamette Valley, then featured in Worthy's Strata IPA – the first brewery and beer to showcase this new multi-layered hop.

## Strata IPA

*"You won't get burnt out on this IPA's bitterness. It's a harmonious beer to drink"*

- Zach Brenneman, Head Brewer

## Boldly Beyond

Our commitment to innovation, featuring Strata, the new multi-layered hop. Hints of passionfruit & mango flavors with a touch of dankness.
